Robert E. Gard Director of Folklore and Local Hestory Project University Edmonton.

Dear Sir:

Receeved yours letter of January 15 1945.

I am glad to see that you will help me make out the Hestory. Ef so: I think et would be best to gather upp all my regestered corespondence refered to en the coresspondence to Prevy Counsels and they Preme Ministers of Alberta Province and in Dominion of Canada and also to the defferents departements in Edmonton and Ottawa.

I have write down all en fact en those mentioned corespondence. And there es evidence that they Pionieers an Canadas Political and Millitary front has make a good succes an thes mess-representation of our cevelisation and represented injustice. But have make et empossibell for honnest agreecultur pionieers to exist or take any responsibillity for the future in thes locality.

Thes es the end of our Pionieer agreecultur front and all I have to say about the General Pionieer front en

Canada for present. I am now only one mans arme left of the Pioneers on thes front.

In my before ensendt Premary for Local Hestory I have refered to the first Brittesh Agreecultur settlars (Frank Meekle, Emil Kableen and others) I encloce here additional materials for that local Hestory about those Pionieers lefve from begenneng to the grave.

Materials to Hestory in fact about me and fammelys lefve and experence on thes agreecultur front es fend en those ensendt corespondence es I have refered to.

I would be glad to get a copy of the Premari: before the Hestory be Prented in cause et es any mess-understanding en my writing or ef et es any more I would add..

Yours very sincerely

O.F. Larsson,
Minnehik, Alberta.

Emel Kableen was the first pionieer agreeculture settlars in this locality. Frank Meikle was the second. Emil Kableen was of German nationality,born in Russia. Frank Meekle was of English nationality born in P.E.I. Canada. Those two pionieers was of good Krestians caracktar truthfull and dependable. Kableen was Lutheran and Independent Consevative. Frank Meekle was Liberal.

They allways stand for justice and right and said to the newcommers: Do yours duty es agreeculture settlars first: and see you get yours reward: Leve upp to Mosses 10 comandement and do to other es you wish to be done by and we will have a good agreeculture settlement ef we take care of our natural resorses in this locality.

They was allways reddy to help and assist new cammen settlars and invalids es tried to leve upp to this constitutian for agreecultur settlement. They was hard to work and hade good experence and enterast in agreeculture and was doing lot of experiment of all defferent cend of cattle grain garden and hay. Efter they got the clover enaccerlated they was mostly farming clover. To year 1916 those two pionieers and other Brittish settlars hade done lots of agreecultur improvement in comparing to that condâtian this locality was in that time.

But in the mentime et hade come in speculatian-- settlars and all cend of nomaders from defferents country mostly from U.S.A. es hade no respect for the old pionieers

constitutian or Brittish settlars right. Those cend of peopple was supparted by the guverment and get controll of all natural resorses es they now has destroyed to no benefet for social or agreecultur improvement in the settlement. And the guverment supported them to get a cend of school establised and allowed them to send tax-votes to those old pionieers Brittish agreecultur settlars es hade no benefet of that cend of school.

In March year 1916 those old Pionieers sendt a Reg. petetian to Dept. of Education and protested to take any responsibillity for that school occount et was not carrege on occarding to publice school law of Alberta Province.

Emil Kableen, Frank Meekle and others received summens to appear in the Court in Wetaskiwin 20 January 1920 for default to pey those school-tax. They appeared in the Court and proved in Court that the school was not carrege on occarding to Public school-law of Alberta Province and Hon. Judge Mr. Lee postponed the cause with payment for day to deffendants and deffendants should be natelyalist 10 day before the sitting. Without to notefy the deffendants occarding to Hon. Judge Lees postponement that 20 January 1920 was a sherriff garneshing the moenney for Kableens sold cattle in the fall of 1920 (show enclosed copy N.1 to the clerk of the Court) This moenney was the first benefit Kableen hade expect to get for hes 10 years hard work and investement on hes hommestead for agreecultur improvement.

In the spring 1921 some others settlars es was out to work hade left there hunting outfits in care of Emil Kableen for that time they was out working. And that 4th of May 1921 came a policeman in uniform and confiscated those settlars and Kableen's hunting outfit without any ground, and also put Kableen in Fort Saskatcewhan jail for 30 days hard lebar in the seeding-time.

Thes was supposed to be done account Kableen and others had complaints against new-cammers es represented criminal carachtar (Show copy N2 Reg: to Attorney Generals)

That time Frank Meekle said: I have allway been proud for that I am Brittish born: but when I see this criminala representation of our civilisation and Brittish justice and right be allowed to carrege on I am ashamed to be a Brittish born.

This criminala representation from the Attorney Generals broke down the moral and interast for agree-cultur improvement on those old pionieers fammelys es was alreddy nearly pleyed out account of hard lefve and work and they majority of them left this locality, only Kableen and Meekle stay on there hummestead to they died.

Emel Kableen was the first and the last of those Pionieers settlars. He died on his hummestead that 12 of January 1939. Seens year 1925 account of hard work and no change for medical treatement he was creeppled and hade a hard time to go along account of that. And in the fall 1935 I find hem entirely helples. es I here explain be encloced copy N3 of Reg. letters to J.A. Wingblade M.L.A. Wetaskewin.

I was appointed administrator and executor of the estate by deceased Emil Kableen and hes surviving 2 brother and 3 sisters.

In February 1939 efter Emil Kableen was passed away I promissed they surviving brothers and sisters to put upp a monument on Emil Kableen's grave for the benefit from the hummestead year 1939 & 1940. Thes has been impossebelt to do account that they güverment mendt out gangsters to entre and brake in the house destroyed the personal property and take the estate in possesion. I have take these matter upp with Hon. Mr. Dubuc Chief Judge Edmonton (Show encloced copy N4 of Reg. letter) and I am now waiting on his attention.

This es evidence that they honnest pionieers on Canadas agreecultur front has been robbed from the beginning on all benefit of there work in lefve and even the monuments on the grave of those conserving criminals and there protectors.

Emil Kableen said before he passed away: that best time I have hade seens I started for agreecultur on the hummestead was when I was put in Fort Saskatewhan jail. and hade 30 days rest with good servants on that sanitary place. But I regrett afver the high Publice expence es been piled upp in the Provence for that cend of commedation to the pionieers agreecultur settlars: et es supposed run about 140,000,000 doller in the Province of Alberta. I probly hade been able to go along without those 30 day rast es I hade not call far and I can not pey any of that debtor bill. Ef I had haft change to go to a hot spring year 1925 when I

started to be creeppled and take massage I hade not been a creepling now. But et was impossebelt for me to get any change to that account of the crimenal interference in my right and home es a pionier Brittish agreecultur settlars. That 4th of April 1934 was the writer O.F. Larsson on the Universty clenic in Edmonton for examination of stomack-trubble. I was advised to take exray. But et could not be done without 20 doller cash. I hade no cash but affred my land and about 24 head of cattle and horses in security for those 20 doller but the offer was turned down with advise to go home and sell the cattle and come back with the cash for that Exray but et was no market for the cattle that time. I hade to go without to know my truble. I enclose copy N.5 of reg: letter to Insane Asylum Ponoka es I have not heard anything about. But the engeneers Crane desepered from this locality so the hummesteaders get a change to do some essential road-work on the road-allowances es was supposed to be done year 1920 according to the agreecultur settlars petetian to M.L.A. in Wetaskiwin and department of Publice Work Edmonton in Oct. 1920.

This es evidence that the pioniers in Canadas Political and Millitary front has received better social service, benefit of Publice Credit and Natural recorses for there serves to the country comparing to what the pionieers on the agreecultur front received.

Et is not to be surprised that the Publice Debt by piled upp by those represented engeneer Supervisors of Publice Affairs.

6th March, 1945.

Mennchik, November 30th, 1920

Clerk of the Court

Wetaskewin

Dear Sir: I send in to Wetaskiwin some cattle to sell efter the man that hade them in charge sold them the sheriff garnished the moenney $100.00 he got for them an supposed judgement for school taxes. I have desp ited those taxes. this school has not been carreg on according to Public School-law in Alberta Provinc. And I dont assume any liability for taxes.

Myself and others got a summens to appear in Court the 20th of January 1920 last and did so the trial was postponed and I got no notes when it was to be; the defence was made at that time (with you can likly see by looking up the records of the Courts) I still stand by. I should like to know who the plantiff is or anything else about this affairs. I might state we are about 75 or 80 miles from Wetaskewin and only bet mail once en week.

Emil Kableen.

Buck Lake Mennchik 3 of March 1921. To Attorney General of Alberta. Edmonton.

Dear Sir:

Wee the undersigned settlars hear would like to draw yours attention to the state of affairs in this settlement well shack has been brooke in to and things stolen and things taken from arrounding places there es a party hear by namn of Charley Parker that wee conseder an undeserable settlars he broke in to a mans shack last winter and take things and when et was found out he began to when about his fammely and brought back the things he was left of on that account well hes boy broke into another shack this winter wish he not need to account of beeng hard upp him and his brother worked in a loaging camp a spell where peyd from 50 to 60 doller in month and could work all winter and there es a strong feeling hear that some of the other craced work did can be laid to them him and his two boys have been leving hear 2 year next summer and have done litle improvements on there land. Settlars hear have to leve there places and go out to work to make a stake to leve on till the get there land clered upp so they can make there leving on et wee have to trust to the hounar of our neighbors when we go out to work and ef wee can not depend on our and ef wee can not depend on that wee depend on the protection of the law and desere thes thing should bee looked into and the guilty punished. Thes have beeng a cause of one erggle feeleng in the settlement and peopple do not like to pleave there places and hope something will be done to allay that feeling.

Copys of registered letters toJ.A. Wingblade M.L.A. Wetaskewin to evidence that the Releaf Officer neglected his duty to assist Emil Kableen now deceased.

Mennchik Alta that 18 November 1935.
Mr. J.A. Wingblade M.L.A. Wetaskewin.

Account of Attorney Generals previous crimenala representation in this locality seens 4 of May 1921, secknes, old age, and no market for his products so es Emil Kableen a honnest pionier agreecultur esttlars in this locality in distress. He es in need and entitled to some assistance. In the first part of October I find Kableen seek and out of cloths and grossery. I asked him if he was in need of help. He answered: I surely need cloths, but will not ask for releaf or help es I can not pey.
That 22 Oct I bringed him a suit of nderwear, and reported the cause to District nurse in Pendryl and I asked the nurse to go along with me to see that man. The nurse reported the cause to the Releaf Officer and told me the same day that they would go out and investigate right away.
That 5 November I sendt my son Henry and Thome Lallawa to look efter Kableen. They fend him seek and in bad condation without grossery, clotsh and firewood in that cold weather. Ef I hade trust on the Releaf Officers promes to investagate and not sendt those two men that 5 of November Kableen probly hade been head now frusen to death. And hwo hade been responsibel for his suffring under our civilisatian. That 11 November was I and my son on Kableen's place again, no Releaf Officer hade been there yet.

I know Mr. Kableen seens year 1915. He es Independed Conservative to carachtar and he has been the most honnest, trustfull, and hardeest workers es I know in the world. He has always done his duty es a good settlar and stand for truth, justice and right. But Mr. Kableen has been mall-treated of our previous criminala Provincial Guvernment.

I ask for Mr. Wingblads emmedatly attention so Mr. Kableen can be assested a way for our Guvernment and divilisation es that man surely es entitle to as a honnest Brittish agreecultur settlar and I wish to get know something soon es possebelt. We will look after him tomorrow again.

Efter I was pointed administrator and executor of the Estate by deceased Emil Kableen and his surviving 2 brother and 3 sisters (encloced copys N.7-8-9) I take the matter upp with the North Alberta Regesterengs Office for to get the Estate Administred according deceased Emil Kableens arrangement in O.F. Larssons and Erec Badens affidavets and the inresant. wishes es expressed in the corespondence from Geo. Chapman Solicetor for the I lett from Regesterengs Office 26 of May 1939. I was advised that I should apply to the Court for letters of admenistration and see a solicitor.

I consulted a solicetor to make out the application es was sendt in Reg: letter to the Court in Wetaskewin 6th of June 1939 but was dismissed by Judge Bury that 12 of Aug 1939.

I refer to my Reg: corespondence conserning Emil Kableens Estate to Hon. Judge Bury (Encloced copys) es he has forwarded to Publice administrator according his letter to me 2 of Dec 1944

Publice administrator advised me in a letter 11 Dec 1944 to counsult a solicitor to prepear proper application again.

I counsulted a Solicetor again and en a letter from hem that 20 January 1945 without to prepear any application he advised me to take the matter upp with the Publice administra. Here is a supposed experence road engeneer with name of McQuin and a road-crow is appears to do labotosh in our war effort by nessuring of man-power rubber and gasolin in conection with construktian of non-essential roads and speed-corner south of Buck Lake.

I been informed that work is supposed to be done according regulation and instruction from the Engineer Superior. I will ask hereb ef et es any place for thes Engeneer and his Superior in the Asylum? It appear to be something wrong in there head es the do not seems to have any interest for to do essential roadwork on the road-allowance es would improve the country and would saf man-power rubber and gasolin to benefit for our War Effort.

1. I hereby charge those engeneers and there Superior and also Mail-Service Department en Edmonton Destrect for sabotash en our War Effort by mess-using man-power rubber and gasolin in conection with commodation for private enterest en thes locality.

2. Et es 13 mile between Pendryl P.O. and Alder-Flat P.O. on high good location for mail-road an Domenian Surveyed road townships - lene between 45-46 es the agreecultur interasted settlars en thes locality called on the Guverment for construction of to mail-road in Oct 1920.

3. Et surly needs investagation where Domenian grant for mael-road been spent en thes locality seens year 1920.

4. Mennehik P.O. es located 5 mail West and 1½ mile north from Pendryl P.O. on the North bundary of that Destrect et supposed to serv on a law poor private trael. Thes a case that the mael-driver has to travel 10 mile for to come 6 mile West from Pendryl P.O. on Domenian surveyd road again (nearly duble nessary distance and always wete and muddy road.

5. Account et es no road from South of Mennehik P.O. es a case that the Publice thes P.O. es supposed to serv has to travel several miles for to come around to Mennchik P.O. and thereby loss of time rubber and gasolin.

6. The havy trafec of lumber-hauling es using thes low poor muddy private trail es take duble that much gasolin and rubber then et would take ef Domenian Grant for mail-road was spent on Domenian surveyd road 2 mile West from Pendryl P.O. for to put in a Culbert and Grading 2 miles on a high good road - allowance an estemate expence of about 300 dollar And et would safve a estemate 60 gallon gasolen an day only on the Lumber-hauling when the trucks es running and also rubber and time and et would saf rubber time and gasolin for the mail-driver. And it would also safve time rubber and gasolen es the Publice have to use now for to come around from South and West to Mennchik P.O. and the Nurses Residence in Pendryl.

7. And furthermore the acting Post-Master in Mennchik P.O. refuse to delever the second klass mael efter when the mail-drever es comming in late account of poor road. A cause that the Publice have to use duble amount of time rubber and gasolin to interfere in our War-Effort en enterast for our country and War Effort

Re: my Regestered letter 30 Oct 1945.

That therein mentioned trubbl seems to be of werry much interast for the cattle owners in Alberta Provence.

I get information that Kukurusnak has call on R.C.M. Police by Registered letter to investegate the case es appears to be a cend of cattle-russ-ling or kidd-napping of Cattle en attempt to stage a hold-upp of 30 doller from Mrs. Kukurusnak for here to get milk to the school-children. I would hereby ask ef R.C.M. Police has made any investegation according my appeal to Mr. Longman Deputy Minester of Agreecultur that 30 Oct 1940. I enclose here explaination and information

Yours truly

O.F. Larsson

Information in fact:

The evening 27th Oct 1944 Mrs. Kukurusnak was looken for the cows to milk them. She could not find them or any cattle in the locality. Next day Mr. Kukurusnak found his cattle 15 head in a corell on Herman Seegels place and a claeme aginst the Cattle for 30 doller dammage from Kaserman and also 2.50 for feed to Mr. Seegel.

The fammely came to my place and asked me to go along and see ef any arrangement could be made so the could get the cattle. And they was angre for to get the cows milked and get milk for the children. But they hade no moenney.

I vendt along with them and told Mr. Seegel to let the fammely have the cattle if they peyd for the feed. And I go in bonds for that the claeme for dammage will be peyd to Kaserman efter vi has investegate ef he es entitle to that claeme. Mr. Seegel answered that was against hes Regulation and ef dant all the moenney be peyd to day the cattle will be advertised for sale tomorro. And inside of 30 day you have a change to see a lawyer and sue Kaserman to the Court ef et es not according to law.

I and Kukurusnak 3 other enterasted cattle-owners in this locality vendt upp to Kaserman for to see him and investagate the supposed dammage. Efter som argument Kaserman withdraw his claeme for dammage but claemed 10 doller for loss of time for to drive the cattle in the Pound. And we promised to pey those 10 doller efter Kukurusnak hade sold the cattle ef Kaserman was entitled to that for driving the cattle in the Pound.

That 23 of December 1944 efter Kukurusnak hade soldt some of the cattle he left 12.50 to me and told me to pey Kaserman ef he proved where he tak the cattle and his right to empound them.And he also notefyd Kaserman by Registered letter that the moenney was left to me under that condation.

Few day later without to prove anything in his claeme of Right Kaserman told me that he hade received Regestered letter from Kukurusnak. But et es to much trubble for him to prove that: and said that he would better to go to

the Court for to get those 12.30. But et will be hegh expence for Kukurusnak. I answered that I can not help that et es your own besines.

Now when Kaserman could not prove anything in his right of claeme. so es et full evedence that this party kidd-napped this fammelys cattle (And passebelt on the fammelys own property) for to stage a Hold-upp on the fammely of 30 doller for to get milk for there children.

Thes es a serius matter: Ef a farmer in Alberta Provence take the milkappeal for to go out and milk the cows in the yard he probly fend hes cows enpounded of thes partys for to stage a hold-upp.

Wee cattle-owners in thes locality desere that those cend of upp-holders be procuted and punished according to Criminal law of Canada and that they be forced to pey the dammage and for loss of time es been a case of there representation. And we also desere that they be forced to pey for the dammage an musk-rates and beaver account of there ellegal trapping in this locality seens 4th of May 1921.

Re: my Previus Regestered corespondence concerning interference in they agreecultur settlars right in thes locality.

Without to take they supposed respairsibel and enterasted agreecultur settlars protest or any Legal Regulation en consideration so has Hon. N.E. Tanner Menester of Lands & Mines Estabiised es appears to a camp for Election-reserve on S.E. 1/4 Sec: 10 and Sec. 11-46-6 W 5 M. and isued Previlegeer to all cends of Mauraders and Grafters of Publice property from all defferents country (and to probly enemy alians and probly deserters from U.S.A. arme) Thes to big dammage on our agreecultur improvement and a cause of bad feeling for the agreecultur settlars es have done there hummesteads-duty according to all Legal Regulation.

When thes N.E. Tanners ellegal Dictatorship and the agreecultur settlars complaint was brought upp to Hon. W. Aberhart Minester of Education and Attorney General en Registered letter 11 and 25 of July and 22 of Aug 1938.

Hon. Aberhart refered thes corespondence to Hon. N.E. Tanner Menester of Lands & Mines for reply.

And en Mr. Tanners letters to me that 20 July and 16 of Aug. 1938 Mr. Tanner trey to protect hes ellegal admenistration and Dictatorship by mess-representation of fact and trey to blame the Dominion Guverment for hes

ellegal admenistration. And state: that our support to hes Dictatorship was uncalled and unnessesary.
(Now I get information that a supposed enemy alian with name of Kaeserman and a cend of probly U.S.A's arme deserter with name of James Miller has received previlegeer to trapp musk-rates in thes locality from Mr. Tanner or hes agents.)

Thes mentioned Election-reserve Camp has been to beg dammage on our Natural Recourses (Fish, Ducks, Musk-rate, Beaver and Timber.) es now enterely destroyd to feed for thes Electorate-reserv. When they been short of musk-rates and Ducks they has hade controll on the Fire and get permit to start Fire and also fight Fire for supposed protection of timber es now destroyd mustly by Fire.
(I receeved information that one time The Fire Ranger called out the Fire-figters to figt Fire in the timber 3 day before t ey hade get the Fire started)

Thes es a serius situation for the agreecultur settlars and our Country. And I wonder ef N.E. Tanner and hes agents es secret agents for our Enemys and has represent thes crimenala administration for to do Sabotash en our War effort en spete to get the agreecultur settlars in opposition against our Federal Guverment.

I hereby call on O.L. Longmans Deputy Menester of agreecultur for attention to envestagate thes matter so thes ellegal isued Previlegier be Canselled and the Responsebel Officers and there agents be forced to pey for the dammage to indeviduals and our Country es been a cause of thes ellegal admenistration.

Thes en interast for the agreecultur settlars in thes locality and our Country. O.F. Larsson

Mennchik Aprill 1945

Today I get information about Joseph Dastal Estates es of much enterast about that Legal and judical Procedur. es encloced on pag 9-10.

O.F. Larsson

Et Et most be something wrong. I dont beleeve the Majority of the peopple en Wetaskewin Judgecal Destrect es of so creminal caracktar es they been represented to be by t ere Guverments agents en defferents derection.

O.F. Larsson

Additional Material to my before ensendt Premary for Hestory about the agreecultur settlars lefve and experence in thes locality from the beginneng to the graf.

I have before mentioned that I take the matter upp with Hon. Mr. Dubuc Cheef Judge en Edmonton conserneng the crimenal admenistrateon of Deceased Emil Kableens Estate But he has not answered or appears to take any attention about my Registered corespondence. I have take the matter upp with M.P. and M.L.A. in Wetaskiwin Destrect And Mr. J.A. Wingbiade M.L.A. answered me that 30 of May 1939 and advised me to lay charge before Justice of the Peace; And I did so: But without any attenteon of the Police. And en hes letter to me 3rd of April 1945 M.L.A. could not explaen to me how thes crimenal admenistration could have happen or what attention I could take for to get those crimenals procecuted and Punished occarding to Crimenal law in Canada and get the Estate admenistrated occarding to the wis es of the Deceased and hes surveving 2 broder and 3 sesters. He advised me to have a Lawyer. How can a Lawyer do anything? When the Guverment and the judge take no attention. Thes appears that the judges Police, and Guverment es only servants for the Lawyer and not for the Peopple of the Country. And et appears that those Guverments Representants do not know the enstruction to the dutys of the Guverments agents in Canada.

Ordinary man beleef that the Guverment es the Masters and gef the enstruction to there agents. The Representateves for the Guverment appers to only know how to draw there

sallary for them sjelft and there agents from the Publice Treasury. Thes appears to be very interasting and surely needs attention from Menester of Public Healht to investegate ef et es any wrong en those conserning Heads. Thes es to expensive protection for the Pionieers Brittish agreecultur settlar on the agreecultur front en Canada.

The Estates of they other mentioned Pioniers agreecultur settlars es have passed away has been admenistrated about in the same way es Emil Kableens. I refere to Gurt: Elsac en N.W. 1/4 1046 6 W. 5th thes Estate tok W. Sergel en passesean Fred Eigels Estate N.E. 4-46-6 W 5M. W. Sergel toke Wigels Estate en possesian. Axel Jacabssans Estate toke the Police in possesean and Frank Meekles. I can not explain much i fact of those Estates But et would be interasting to know what and of admenistratian et has been: supposed occarding to law. That 19 July 1925 came C.A. Jacobssan to my place and was very seek. And he called on Emil Kableen to come afver for settling affairs between them before he left my place for the Hospiatl. And he left all hes affairs and property in hand of me with all information and instruction about administration of hes Estate in case he passed away in the Hospital. When he gef me the kee to hes house he told me to not leve that kee to any one more then Williamsson on Backe those two and Emil Kableen es they only es have any beusenes on that place. That 9 of Sept 1925 came a Police Konst: with name of Appeltan and told me that

C.A. Jacobsson was dead on the Hospital and in the name of King George the 5th he demanded me to gef him the kee to the house and all information about the property belong to C.A. Jacobssons Estate. Ajd en the name of King George the 5th he Notefyd the Publice to not come on C.A. Jacobssons place before everything es straeghtnet out according to law. I dont know ef the Police and hes agents take all the property belong to Jacobsson Estate but et lookes like that. And I surely know that Jacobssons Estate was not administrated according to Jacobssons wishes and instruction to me that 19 of July 1925 when he left my place for the Hospital where he died.

When Fred Wigel was supposed to be hurt by a horses, W. Seigel take Wigel to Seigels place for to take care of hem. And w en Wigel was dead Mr. Seigel called on me to make the coffin es I did: And also feneshed some materials. When we hade get the boddy in the coffins Mr. Seigel told me et was all we could do before the Police been out here. Then I can let you know when vi can have the Funural. But you can gef me the Bill for yours expence and ef you has anything more commen from Wigel and I will represent those bills to the Trust Co. in Edmonton. And I gef Mr. Seigels the Bills es I have not heard anything about seens. About one year later I asked Seigel about the Funural and my bills es I left to him. And he answered: when the Police came out et was to varm weather to take the boddy out to any graveyard so my son and the Police digged hem down on his Hummestead and for yours bills you will get

that from the Trust Co. Edmonton efter the Estate be admenistrated occarding to law about one year later Doctor beayer en Remby told me that he hade not received anything for hes expensef tripp (40 doller) to Fred Wegel en Mennchik one day befor Wegel passed away. Probly those Hospital and Doctors Bells for those two Pioniers Jacobsson and Wegel es passed on to Publice expence. And ef so: not en eether case would that be nessesary. Et surely appears to have been crimenal admenistration of those Pionieers Estate Occarding to thes represented law.

Few day before Fred Wegel passed away and about 1/2 hour before he was supposed to be hurt of the horses he hade 200 doller cash in hes pocket and told me that he hade 800 doller commen from that Farmer es he hade work for the 2 past summers. And he hade teem vagen and harnes. And also he hade enproveneng on the land about 8 or 10 acres brok and a house.

Year 1929 a man with name of Lawese Darka came to thes locality for to locate a home for hem and hes fammely. He hade about 700 doller in cash. And he filed on a Hummestead bought a house with one acres of land and peyd 150 doller cach (Show encloced copy of Reg: lett to the Police) And he bought teem 250 doller and vagan harnes he bought seed potates and planted about 1 acres potatis. When thes was done hes teem desepered one neght. The man was lookeng for hes teem all ofver the Country for two months and was not able to find out anything about the teem. Two year later a man told him ef he get 10 doller he would breng home the teem

(That teem hade surely been enpounded som way) Efter he hade enveste hes cash moenney and time on thes agreecultur enprovement he vendt out to work in the harvest and then he came back for to harveste the poates-crop es he planted in the spreng. And to hes surprise he find hes potates nearly harvested: But he fend some of the harvestors so he was able to get potates for hes own supply. Then he vendt out to work again and when he came back from work that time 15 February 1933 hes house was stulen and he reported that to the Police es promised to emmedatly envestegate. But the Police vas not commen. And Darka was laeng hes case before Justice of the Peace W.L. Corol in Wenfeild that 25 of Feb. 1933 and he promised that the Police would come out emmedatly. But no Police came for any envestagatian. That 17 of June 1933 was thes complaent brought in Regestered letter to Officer Commanding R.C.M. Police Edmonton. And he answered that the complaent was groundless. Mr. Darkas experence es agree-cultur settlars was not so long. He left thes locality before he died.

About the same time es Darkas experience another settlar with name of Rachel came en and hade cattle: Her filed on Hummestead and get permit to cut hay for feed to hes cattle on S.E. 1/4 10-46-6W- He put upp that hay in a stack in the summer. Then in the wenter he sendt hes boy to haule home the hay to the Cattle. But when the boy started to load ha from the stack come Justice of the Peace Geo H. Berg and a trappar with name of Charley Feem and draw the boy from the hay-stack so he hade to go home wethout any

hay. Efter that the Justice of the Peace and the Trapper hauled that settlars hay home to there own place. I dont know how long time thes settlar and hes cattle hade to suffer before they died. That time I called on Menester of Publice Healht to envestagate ef et was any wrong in the Head on thes Justice of the Peace and the trapper for safvety of the Publice.

I encloce copy N:2 of Regestered letter to Hon. Mr. Lee Judge in Wetaskewin Distrect.) es show the experence a Canadian agreecultur settlars hade weth a Englishman under this previus represented English Justice under Bretesh Rule.

But thes Canadian settlar es en thes locality get and have to pey for those unnessesary Publice expence for hes rasting time in the jail. But that Englishman and another Engleshman with name of Arthur Bourowws has now left thes locality. Efter they has made good succes of thes previus Crimenala representation of our cevelisation. Brittish Justice and Rule. And they has done all in there power to draw unnessesary expence on the Publice and also represent bad carachter on Englesh Nation and drawing scandal on our cevelisation, Brittish Justice and Rule and scandal on the Great War Weterans crcktar. There representation has been to beg dammage on our agreecultur enprovement and to inestematly dammage on the childrens Education in thes locality.

Hwo could beleef that Pioniers from Canadas Millitary front and Great War Weterans would make thes cend of representation, of that cevilisation Brittish Justice and Liberty es. And not represent any respect for Brittesh Right and

Constitution es they been supposed to have feght for protection of. Arthur Bourrowes has been Justice of the Peace. And for protection of unlawfull administration and interference in Brittish agreecultur settlars Right. He has sendt the settlars to jail without change for defence in groundless charge. Thes Contrary to Brittish Constitution. and to beg unnessesary expence for the Publice and dammage on the agreecultur enprovement and childrens Education in thes locality.

Mennchik 11 of April 1945 O.F. Larsson.

Mennchik 12 of Appril 1945

I have today received information about a Estate: Joseff Dastal Deceased: a old agreecultur settlar in Mennchik Distrect: Before he passed away he hade made a will to his nebors son John Kuka rusnak. (He es now en the Arme)

That 12 of May 1944 was the Father to John Kukurusnak in the Judical Office en Wetaskiwin for to file Notes to the Judge and the Publice to Porhibation of the will. And the Clerk en the office refused to assest him and advised Kukururnak to go and get a Lawyer to make application for that Notes. And 26 of May 1944 was Senior Kukurusnak an Odell & Rusle's Law Office en Wetaskewin and peyed them 15 doller for to make application and delevery notes to the Judge for Probebation of that will. When Kukurusnak dont received any notes for to bring the vittnes on the will before the Court. He write to the Lawyer and ask him for explaination. Lawyer answered that the Judge Bury and Hon. Dubuc Cheef Judge in Edmonton hade not recaeved the will as a will. Account of thes advise from the Lawyer Kukurusnak. Write a Reg: letter to Hon. Mr. Dubuc Edmonton and asked ef the Notes for Probebation of that well was represented tohim and when he could bring the vittnes before the Publice and Judge.

To answere on thes corespondence he received a letter from the Clerk of the Court en Wetaskewin. That was not nessesary to bring en any vittnes. Thes es evidence that the Lawyers has not make any Notes delevered to the Judge yet. And when Kukurusnak find out that the Lawyer hade

neglegt to delever the Notes to the Judge es he was peyd for Kukurusnak write to the Lawyer and demanded to get the documents and the will back es he hade left to him. The Lawyer answered that he could not send home the will account he hade left that en the Court House. And also the Lawyer send a Bill against the Estate for 53 doller for supposd work on that Notes. And matters es the Adminestrator hade not ask him to do and was not nessesary for Prohibation of that will.

Thes cause appears to be a Record of Legal and Judgecal Procedur (1) The Clerk of the Court (Publice servants) refuse to assest the Publice in the Publice Offic (2) The Law er neglect to do that work he been peyd for to do: And send Bills for work es he has not been asked for to do (3) Judges es supposed to not recocnise a will without Publice Notes and hearing of the vittnes (4) The Lawyer refuse to return document to hes cliants. Thes surely appears to be in need of medical examination on those conserneng heads en the judgecal Office and the Law Office.

I came from old Country es Emmegrants to Mennchik Alta en the spreng 1929 for to locate a home for me and fammely. Account of Recommendation from my interperter Coleman Kees: Es representant for Publice and Guverment of Canada. I pointed Postmaster J.L. Typing to my administrator for to make upp a deel of house and land with Charley McCollen Mennchik that 24 day of April 1929. I left 150 doller en depose of Typing for peyment of that dael and 5 doller for typings trubbie to transfer Charley McCallans title to me.

According to that instrument es I received for my moenney es I left en despose of Typing my acting administrator so has Typing peyd my moenney to McCallen for a property es Typing understand that McCallan was not the Registered owner of and thereby been helping McCallen to collect moenney under fahls pratence. Thomas Clery show that he es the regestered owner of my supposed property es Typeng has peyd my maenney far. And Thomas Clery with help of Frank Marshall has now destroyd my supposed property enterely.

Thes has been a inestimatly dammage for me and fammely. I hereby lay complaent against Typing es my admenistrator for careless admenistration of a other mans property (Cash moenney) es I left en care of him account that he es recommeanded a wise and trustfull man from Guverment and Publice. I demand that he or McCallan

be forsed to pey my moenney back with interast and suffring of dammage and expence and thatthe be punished according to crimenal law of Canada

Hon Mr. Lee Judge for Wetaskewin Destrect Wetaskewin

Account of court case held èn Mennchik Hall 7 January 1933 when a Canadian born a fammely man with name of Micka be sendt to jail for 5 months for argumenting with a Englishman W. Semmans to big expence for the publice and scandel on our law. Thes account of mess-caring of Justice and Mess-representing Brittish law.

That was brought upp to the Court and by vittnes proved that Semmans first attacked Micka with a havy sticks of wood twice before Micka to self-defence pussed Semmans away without to hurt him. But vittnes proved that Semmans hade hurt Micka first.

En the cercomstances and Semmans previus representation es been several case of trubble and suffring for peopple and animals and expence for the Publice so es the Publice opinean more willing to pey tax for sending that Englishman back to London and leve the Canadian born to take car of hes fammely. We call for the Hon. Judges attention for a new trail and another Judge and Police en thes cause. Hwo es

the crimenal? That fellow es attach with a peace of havy wood or that men es puss the Crimenal away. And Hwo es entitle for protection of civilisation in interest for the Publice and Hon. of our law.

Dear Sir:

I receved a copy of Alberta Folklore Quarterly Magasen and et es much interasteng I encloce here one doller for subscription .

Et es much interasting for me account the Record show seens year 1530 that my old forfathers has been Pionieers agreecultur settlars on Swedish agreecultur front an on that Estate es I was born. And now when my brother died last summer hes son take ofver the Estate also that old Hummestead es jet belong to the Generation from the Pionieers seens year 1530 es the Recordshow.

Now when my brother died last summer was the Estate taken ofver by hes son et es also jet belong to the Generation from the Pionieers seens year 1530.

Thes as a big defferents to lemmet of time a Pionieer have right to stay on hes Hummestead en Sweden compareng to en Canada where the lemmet es from 3 to 30 year es my before ensendt matelial show.

But I can not fend any record ên Swedesh History from any Engeneer Superior es have admenistrate the Natural Recources and the Pionieers Affairs like here en Canada. And surely ef they have hade that en our Generation et hade not been any Sweden today or any supply for the Milletary.

I well send en more addetian to the materials es I have sendt before when I get teme. Yours truly O.F. Larsson

Mr. Robert E. Gard Director Folklore and Local History Project University Edmonton

I encloce here a hestory about the Pioniers agree-cultur settlars experence of Bee-keeping from the beg-enneng to the end.

Yours truly

O.F. Larsson

HESTORY ABOUT THE PIONIERS EXPERENCE OF BEE-KEEPING IN MENNCHIK LOCALITY:

1. About year 1931 Carl Bohneng brought in the first bees and materials from outside to S.E. 1/4 9-46-6 W 5th. Those bees died but the old materials was left.
2. About year 1935 Baron van Kraugner take in bees and materials from outside to Alder-Flats. Kraugner died and Carl Bohnny was the admenistrator of Kraugners Estate and also take care of the Deceased bees and materials.
3. Same year later Hedren Kramer started bees on N.E. 1/4 9-46-6 W. 5 M.
4. Year 1940 O.F. Larsson bought 1 packets of bee and materials from Eatons and started Bee-keeping on S.E. 1/4 4-46-6 W. 5 M.
5. Year 1941 Herman Seigel and Parkers bought bees and materials from Harse and Hermacy in Winfeild and started Bee-keping. Those bees died in the wenter but the materials was left.

6. Year 1943 O.F. Larsson and Herry Runka bought bees and materials from Harse and Hermacy in Winfeild. Hermacy was the agent to sale those bees and materials and was doeng the enspection es experence Bee-keeper.

7. Year 1943 John and Wilfred Andersson brought en bees and old materials from outside to Alder-Flat and S.E. 1/4 46-6 W. 5M e Mennchik.

8. 1 June 1945 was Alder-Flats and Mennchik Localitys full of Bee-desease.

9. The enterasteng questians es now where es the Desease commen from? Et must have been commen from bees and materials es been brought en from outside by one of here below mentioned: Carl Bohneng, Baron Kraugner, John and Welfred Andersson, Hermacy in Winfeild or from packet Bees.

10. Year 1944 the writer O.F. Larsson get information that John and Welfred Andersson Contrary to the Bee-desease Act was moving Bees and old materials between Alder-Flats and Mennchik and between the Trappeng and Fishing Camps from Buck-Lake and Saskatsewhan River.

11. To year 1944 the writers Bees on S.E. 1/4 4-46-4 W.5 was doeng fairly good But year 1944 the writer se something wrong in two of the hives but not understand what et was. But afraid et could be start of desease commen from those moving bees and old materials of Carl Bohnengs, Krauginers and Anderssons old materials es was brought en from outside. Et was a case that I notefyd Mr. W.G. Le Maestre Provencial Apiarest en Regestered letter 10 of April 1944 about this moving of Bees and old materials on the trapplenes and Fesheng-camps.

12. That 8 of June 1945 came a Bee Inspector from Edmonton to my place S.E. 1/4 4-46-6 W 5 and inspected my Bees and fend them full of desease and destroyd the Bees and materials by Fire to big loss for me and our Country. Ef the Bees hade been Inspected a year ago when I notefyd the Apiarest the Dammage hade not been so bad and the desease hade not been spred so bad.

13. I dont know ef those bees and materials on those trapplines es I beleve that the desease es commen from and notefyd the Apiarest about been inspected yet. And now et probly es a hard matter to fend them. Et been good time for the trappers to destroy them now en one year.

14. Ef the desease was en that Bees and matereals es Herman Seegel, Parkers, Kunka and I bought from Harse and Hermacy en Winfeeld year 1941 and 1943 so es Mr. Hermacy en Wenfeeld Responsebel for spreding the Bee-desease en thes Locality. He was the agent to sale those Bees and materials and experence Bee-keepers he understand ef et was any desease en those bees and materials.

15. Et apears that the Bees es protected under the Bee-desease Act that same way es the timber, Musk-rates and Beaver been protected under the Fire and Game Act en thes locality seens 1 of January 1921.

Minnchik Alta 4 of May 1945.

Additional materials to before ensendt Premary for Local Hestory about the agreecultur settlars lefve and experence from begining to the grave en thes locality.

I am now the only one surviving of the Pioniers on the agreecultur front en thes locality. And my healht and working power es going down account of hard work and no change for Medical treatement so I am not abl to support me sjelf by agreecultur work any more under thes condation. And I have to say that same es Emil Kableen before he passed away. I have before explaen en fect the lefve and experence of the Pioniers on thes front es have passed away before me: and the way the been robbed on everything en there leve and even the monements on the grave. The monument for my grave appears to allreddy been stulen before I got time to pass away.

To evidence that all agreecultur Brettesh settlars right to make honnest leveng occardeng Legal Regulation and Brittesh Counstitution been deneid to me and fammely from the begenneng to thes time by those Rulers es our "Lord" Jesus Krist mentioned en hes trail ..... I refere to my before ensendt copys of defence and charge to Destrect Court in Wetaskewen 22 Sept and 17 November 1937 es the judge was not allowed to looke en to account of orders from Menester of Justice Ottawa.

2. My defence in Surprime Court Edmonton 8 of July 1943 es the judge deneid hearing of.

3. My Reg: letter to Hon Lucean Mainard Attorney General Edmonton 6 of Oct 1943 3s he do not answere or take any attentian about.
4. Also my Registered Corespondence to Prevy Counsul en Ottawa seens 28 of June 1928 and Surprime Court of Alberta.

Thes appears that the duty of the judges and Attorney Generals es only to draw there sallary from the Publice Treasure exept en cases where they have any change to send out there agents to mess-represent our Keng, uniform and cevilisation and draw scandal on Brittish Justice and Rule. I dont belive the majority of the peopple en Alberta Provence es of so cremenal crachtar es they been represented to be and specialt en Wetaskewin Destrect. But et surely es a bad sign en a country when the auhtarity es afraed to appear before Hon Judge and Publice en appen Court without force. Crimenal do not appear for Hon Judge without force. Now to the last I have to pray to our Hon "Lord": For thes represented English justice under Brettesh protection, the chereeff and hes gang from Leduce and the Pioniers on Canadas Political and Millitary Front safve us. Almighty God!

Agreecultur settlars en thes locality seens year 1915 vand!

O.F. Larsson.

Faroa en Egypt was dremming en hes time about 7 poor cattle es swallowed 7 fat cattle and still was just es poor es before. Et probly was the Pioniers from Canadas Millitary and Political front he was drimmeng about. They has now swallowed the Pioniers agreecultur settlars and all Natural Resourses and es just es poor.

University Edmonton

Dear Sir:

Received yours letter of January 15 1945.

I am glad to see that you will help me make out the History. Of so. I think it would be best to gather up all my registered correspondence refered to in the correspondence to Privy Councels and the Premiers Ministers of Alberta Provence and in Dominion of Canada and also to the different Departments in Edmonton and Ottawa.

I have wrote down all in fact in those mentioned correspondence. And there is Evidence that they Pioneers an Canadas Polical and Military grant has make a good succes an this mess-representation of our confederation and represented my notice.

But have make it impossibelt for honest agreeculter Pioneers to exist or take any responsibility for the future in this locality.

This is the end of our Pioneer and agreeculter grant and all I have to say about the Federal Pioneer grant in Canada for present. I am glad only one means and

left of the Pioneers on this front
In my before unsent Prefatory for Local
History I have referred to the first British
agriculturist settlers (Frank Wheeler, Emil
Nathan and others). I enclose here addi-
tional sentences for that Local History
about these Pioneers before proceeding
to the years.

Materials to History in fact short and
generally, like Land Experience on this

Pioneers to Local History.

Emil Kablun was the first Pioneer Agreeculture settlers in this locality. Frank Meable was the second: Emil Kablun was of German Nationality born in Russia Frank Meable was of English Nationality born in P. E. I. Canada. Was two Pioneers was of good Christian character beautiful as well Dependable. Kablun was Lutheran and Independent conservative Frank Meable was Liberale

They allways stand for justice and and right. and said to the Government: Do unto others duty as agreeculture settlers. Love thy and we can get along second: Love your to Masses 1st commandement and do to others as you work to be done by. and we will have a good agreeculture settlement if we take care of our Natural resources in this locality

They was allways ready to help and assist newcomers settlers and workers to treat to love unto to their consideration for agreeculture settlement. Was a hard. to work and help good citizenship agreeculture and interest and was doing lot of experiment of all different kind of cattle grain garden and

for

After they got the claim inoculated they was mostly farming claims so for 1916 those two Provinces and other British settlers have done lots of agriculture improvement in comparing to what conditions they was at that time.

But on the mountains it had more on speculation-settlers and all kind of land-Nomades from Different country must-ly from U. S. v. ex. so that no respect for the old Provinces constitution or British settlers Right. Here kind of people was supported by the Government and get control of all Natural Recares so the man-has talkayd to no benefet for social or agriculture improvement in the settlement.

And the Government supported there to get a kind of school established and allowed them to send tax-Rates to those old Provinces British agriculture settlers so hade no benefet of that kind of school.

In March of year 16 there old Provinces sent a Reg: Politan to get of location and wanted to take my certificates for that school reserve it was not accepted according to Public school law of Province.

Emil Kaldan, Frank Meakle and

others received summonses to appear in the Court in Waskesiu on 29 January 1926 for default to pay their Road-Tax. They appeared in the Court and proved to the Court that the Road was not always in working order which caused them to lose a day's pay. The Court postponed the cause with payment for day to defendants and defendants should be satisfied but to pay before the sitting

Without to stop the defendants working to Warrant Less Enforcement that 29 January 1926 year a Thousand Summons for working for Roads was sent to the Court. The Court has seemingly seen the fact, how it Settlers have expect to get for the 7 years hard work and investment on his Homestead for agreeable improvement.

In the spring 1926 came other settlers as was out to work had left their Implements in care of Emil Pahlen, that they were not working. When that 4th of May 1926 came a Police Officer on duty arrested and confiscated these settlers and Pahlens Implements without any ground. And also Emil Pahlen on Fort Saskatchewan paid for 30 days hard labor in the working-house

This was supposed to be true account Rabbeni and there had complaints against Mr. Edwards. as represented criminal carachtar (have copy of 2 Reg. to Attorney Generals)

That time Frankbuckle said, I have always been proud for that I am British born: first when I be the two commands representation of our constitution and British justice and Right be allowed to convey me I am ashamed to be a British born.

This criminals representation from the Attorney Generals took down the record and interest for representation imprisonment on these old Pauliers formerly Convicts Rabbeni nearly played out account of hard labour and work and they majority of them left this locality only Rabbeni and Buckle stay on there Remunerated to they duck

Emil Rabbeni was the first and the last of these Pauliers settlers. He had an his Remunerated that 1st January 1891 was Gen. 75 account of hard work and no change for Medical treatment he was crippled and had a hard times to go along account of that, and on the fall of 95 I find him entirely helpless. & I have explain

by enclosed copy of Reg letters to J. A. Wrightsdale Mb. L. A. Waterskevin.

I was appointed administrator and executor of the Estate by deceased Emil Kablen and his surviving 2 brother and 3 sisters

In February 1937 after Emil Kablen was passed away I presumed the surviving brothers and sisters to grant after a discussion on Emil Kablen's grave for the benefit from the deceased estate of $3,500.00. This has been unpossible to ascertain that this agreement, could not be signed to Embr. and back on the deceased estate the deceased property and take the Estate in possession I have like their mother upon death of Mr. Burke & Lof Judge Edmonton Alberta enclosed copy etc 1 of Reg letter) and I am now awaiting on his decision.

Thus is evidence that they harvest Pauline on Canadas prosecution grant has been robbed from the beginning on all benefit of their work in life and even the Monuments on the grave. of these surviving deceased and their Partners.

Emil Kablen said before he passed away: That last time I have back from I started for prosecution on the Government was when I was put in Fort Saskatchewan jail

and hade 30 days rest meth good servants
on that sanitary place. But I regret over the
high Publics expences to been pulled up in
the Province for that cend of consumtion
to the Province agriculture settlers. I
is hoo-pused new sheet 160 ac. ore hader
I probly ~~hade been able to~~ on the Province
of Alberta I probly hade been able to go many
on that I so duly rest as I hade not rest
for and I can not pay any of that Dollar Bill
I had left obliged to go to a Hot-spring
Year. 925 when I started to be troupled with
Pain in my Stomach I hade not been a Hospital
or any. But it was impassebell for me
to get any charge to that account of the cri-
minal interference on my Right and have
to a Province Institution methods.
That 4th of April 1924 were the writer
O. F. hoed on in the University Clinic in
Edmanton for examination of stomach-trubble.
I was advised to take x-ray. But it could
not be done without 20 dollar cash. I hade
no cash but offred my land and about
24 head of cattle and 6 horses in security for
these 20 dollar but the offer were turned
down with advice to go home and sell
the cattle and come back with the cash
for that time but it was impossebell for
the cattle that time. I hade to go without to know
my trouble

I enclose copy (No 5 of my) letter to Female Asylum Penetanguishene & I have not heard anything about. But the Engineers have deserted from this locality in the Provincial Parliament get a change to do some essential road-work on the road-allowances to which supposed to be due year. According to the appended letters to Mr. [illegible] to Mr. [illegible] and Department of Public Works [illegible] on Oct 1920.

This is evidence that the Premiers in Canadas Political and Military Front has received better Social service, benefit of Public Lands and Natural Resources for there areas to the Country comparing to what the Premiers and the appreciation [illegible] received.

It is not to be surprised that the Public Debt be piled up by those represented Engineer-Supervisors of Public Affairs.

Yours truly [illegible]

Dear Sir: I send in to Wetaskewin some cattle to sell after the man that had them in charge told them the Sheriff Garnished the mooney & I as he got for them on supposed judgement for school Taxes. I have defended disputed there taxes, this school has not been caring on according to Public School law in Alberta Province. And I dont assume any liability for taxes.

My self and others got a summons to appear in Court the 20 of January 1920, last and did so the trial was postponed and I got no Notes when it was to be; the Defence were made at that time (with you can likly see by looking up the records of the Courts) I still stand by. I should like to know who the plaintiff is or anything else about this affairs. I might state we are about 75 or 80 miles from Wetaskewin and only get mail once in week.

That therein mentioned trubble seems to
be of verry much interest for the Cattle
owners in Alberta Provinces
I get information that Tukuruuk
has call on R. C. M. Police by Registered
letter to investigate the case it appear to be
a end of Cattle-Russ-ling or Kidd-napping
of Cattle in attempt to Stage a Hold-up
of 50 Cattle from Mrs Tukuruuk Car here
to get milk to the school-children
I would kindly ask if R. C. M. Police
has made any investigation regarding
my appeal to Mr. Langman Deputy
Minister of Agriculture Dat 30 oct 1944
I enclose here enclosures and appre-
ciations

Yours Truly
O. S. Nielsen

Information in fact:
The evening 27th oct 1944 Mess Tukuruuk
was looken for the Cows to milk them

She could not find them or any cattle in the locality. Next day Mr Kukuruzuk found his cattle 15 head in a corell on Herman Seegels place and a claime against the cattle for 30 dollers damage from Haserman and also 2.50 for feed to Mr. Seegel.

The family came to my place and asked me to go along and see if any arrangement could be made so the could get the cattle back They was anxious for to get the cows milked and get milk for the children. But they made no headway.

I went along with them and told Mr. Seegel to let the family have the cattle if they payed for the feed, and I go on bonds for what the claime for damage will be payed to Haserman after the investigate if he is entitle to that claime.

Mr. Seegel answered that was against his Regulation and if dont all the headway he payed for the cattle will be advertised for sale tomorro. And inside of 30 day I can have a change to see a Lawyer and see Haserman to the Court if it is not according to law.

I and Kukuruzuk & other interested Ukrainians in this locality went up to Haserman for to see him and

investagate the supposed damages. After
som argument Fraserman withdrew his
claime for damage but claimed for
for loss of time for to drive the cattle on the
Pound. And we promised to pay them 5
dollar after Tukumwah had sold the cattle
if Fraserman was entitled to that for driving
the cattle on the Pound.

That 23 of December 94 after Tukumwah
had sold some of the cattle he left P.o. to
me and told me to pay Fraserman if he
proved where he tok the cattle and his
right to impound them. And he also
Notefyd Fraserman by Registered letter
that the summery ords left to me under
that condition.

Few day later got threat to pay any-
thing in his claime of Right Fraserman
told me that he hade received Registered
letter from Tukumwah. But it is
much trubble for him to prove that:
and said that he would better to go
to the Court for to get that P.o.: But it
will be high expence for Tukumwah.
I answered that I can not help that it
is your own business.

Now when Fraserman could not prove
any thing on his right of claime.

so as at full evidence that this party Hold-mapped this farmers cattle and passebelt on the farmers property for to stage a Hold-upp on the farmer of 30 dollar for to get milk for hes childrens

Hes is a series matter. Ed a Farmer in Alberta Province take the milk-meal for to go out and milk the cows on the yard he finally find hes cows unmilked of this partys for to stage a hold-upp

We cattle-owners in this locality desire that these cruel of upp-holders be prosecuted and punished according to criminal laws of Canada and that they be forced to pay the damage and for loss of time to have a case of these respectable citizens and we also desire that they be forced to pay for the damage on milk-rates and Beaver account of their illegal trapping on this locality this 4th of May 1911.

Dear Sir:

I enclose here copys of Registered correspondence to Mr. D. H. Langman Deputy Minister of Agriculture Edmonton as probly can be interesting material for the History And I wonder what could of attention he can take in these matters.

I have before on several Registered letter can a attention from Director of Public Health to investigate the Need in these Peoples reconstitutions and their agents for safety of the Publics: But he has not take any attention: a cause that kind of diseases an epidemic he have ability to spread more and is able to go all over the Country many those crowned reconstitutions and their protectors. Those mentioned registered letters to Minister of Public Health Surely is interesting material for the History. I hopes you can get them in the Department.

I would like to send a copy of History concerning our civilisations representation to the delegates in San-Francisco-Conference for them to compare our civilisation to other Nations of agriculture. Yours Truly

Additional Material to my before mentioned Premary for History about the agreeculter settlers life and experience in this locality from the beginning to the grave.

I have before mentioned that I take the matter upp with Hon Mr. Dubue Chief Judge en Edmanton concerning the criminal administraton of Deceased Emil Kobleens Estate But he has not answered or appears to take any attention about my Registered correspondence. I have take the matter upp with M.P. and M.L.A. in Wetaskewin District. And Mr. J.A. Wingblade M.L.A. answered me that 30 of may 1989 and advised me to lay charge before Justice of the Peace; And I did so. But without any attention of the Police. And in his letter to me 3rd of april 1945 M.L.A. could not explain to me how this criminal administraton could have happen or what attention I could take for to get these criminals proseccuted and Punished accarding to Criminal law in Canada and get the Estate administrated accarding to the wishes of the Deceased and his surviving 2 broder and 3 sisters. He advised me to have a Lawyer. How can a Lawyer do anything? When the Government and the Judge take no attention. This appears that the Judges

Police, and Guvernment es anly servants for the Lawyer and nat for the Peapple of the Caunty. And it appears that thase Guvernments Representants da nat knaw the instructian to the dutys of the Guvernments agents in Canada

Ordinrary man believ that the Guvernment es the Masters and gef the instructian to there agents - The Representatives for the Guvernment to anly knaw how to draw there sallary for them yelft and there agents fram the Publice Treasury Thes appears to be very interesting and surely needs attentian ~~fram~~ fram Minester of Public Hcallt to invertegate if it es any wrang in thare canserning Heads. This es to expensive fratcctian for the Prairicers Butterk agrec cultur sellar an the agrecculter fraut in Canada.

The Estates of they ather mentioned Prairies agrecculter sellers es have passed away has been administrated about in the same way es Ernst Raphers. I refere to Gust: Edrac an N. E. 4-46 6 W.; - In thes Estate tok W. Siegel in passesian Fred Wigels Estate N. E. 4-46-6 W. 5th W. Siegel take Wigels Estate in passesian. Axel Jacabsens Estate take the Palice in passesian and Frank Meeks I can nat explain much i fact of thare Estates But it would be interesting to knaw what end of administration it has been: Suppared according to law

That 19 of July 1925 came G. A. Jacabsson to my place and was very seek. And he called an Emil Kahlen to came over for settling affairs between them before he left my place for the Harpital. And he left all his affairs and property in hand of me with all instruction and instruction about administration of his Estate in case he passed away on the Harpital. When he gif me the kee to his haure he told me to not lene that kee to any one more than Williamsson an Backe those two and Emil Kahlen as they only men as have any becure as on that place.

That 9 of Sept 1925 came a Police Konstapel with name of Kyrkeltan and told me that G. A. Jacabsson was dead on the Harpital and in the name of King George the 5th he demanded me to gef him the kee to the haure and all information about the property belong to G. A. Jacabssons Estate. And in the name of King George the 5th he Natefeyed the Publice to that came on G. A. Jacabssons place before everything es straeghtned out according to Lorr.

I dont know of the Palice and his agents take all the property belong to Jacabsson Estate but it looked like that. And I surely know that Jacabssons Estate was not administrated according to Jacabssons wishes and instruction to me that 19 of July 1925 when he left

my place for the Harpital where he deed.

When Fred Wigel was supposed to be hurt by a horses. M. Feigel take Wigel to Feigels place for to take care of hem. And When Wigel was dead Mrs. Feigel called an me to make the coffin to Ded. And also furnished same materials When me had get the body in the coffins Mr. Feigel told me et was all me could do before the Police been aut here. Then I can let you know when wi can have the Femural. But you can get me the Bill for yours exience and if you has any thing more can me from Wigel and I will represent there bells to the Trust Co in Edmanton And I get Mr. Feigels the Bills as I have not heard any thing about now. I sent and few later I asked Feigel about the Femural and my Bills as I left to him. And he answered when the Police came aut et was to warm weather to take the body aut to any graveyard so my son and the Police digged him down an his Hemmerstead and for yours Bills you will get that from the Trust Co Edmanton after the Estate be administrated according to there about one year later Doctar Boyce in Rimby told me that he hade not received any thing for hes expenses trypp (40 dollar) to Fred Wigel in November one day before Wigel praxed away. Prably there Harpital and Doctars Bells

far thare two Praniers Jacabsan and Wigel es passed an to Publice exprence. And ef so: nat in eether care mauld that be nesesary. Et surely apears to have been criminal administration of thare Praniers Estate according to thes represented facts.

Few day belare Fred Wigel passed away and about ½ hour before he was supposed to be dead of the harts he hade 200 dollers cash in his pocket and told me that he hede 800 dollers [illegible] from that Farmer es he hade mark for the 2 part summers. And he hade Teem wagen and harnes. And also he hade improvening an the land about 8 or 10 acres brok and a houre.

Year 1929 a man with name of Lawre Sarka came to thes locality for to locate a home for hem and his family. He hade about 700 dollers in cash. And he filed an a Homestead bought a houre with 160 acres of land and payd 550 dollers with. Thare was also [illegible] of Reg: left to the Farm and he bought Teem for 250 dollers and wagon harnes he bought seed potatus and planted about 1 acres potatos: When thes was done hes Teem desepered one night. The man was looking for hes Teem all over the Country for two months and was not able to find anything about the

the Teem. Two year later a man told hem
if he get 3 doller he mauld breng hame the Teem
(that Teem hade surely been unpanded sam way)
& ster he hade unverte hes cash maanney and
time an thes agreecultur unvranement he vendt
aut to mark in the harvert and then he came
back far to harverte the pratates - crap as he plan
ted in the spreng. And to hes surprise he
fund hes pratates nearly harverted. But he fend
saame af the harvestars so he was ebb to get
pratates far hes aven use. Then he vendt
aut to mark again and then he came back
fram mark that time in January 1933 hes haare
vas stolen and he reparted that to the Police
es pramised to envireddy and unvestegate
But the Palice vas not carfuss. And Sarka
vas taeng hes case bifare Justice of the Peace
W. S. Earal in Winfield that 25th Feb. 1933
and he pramised that the Palice vould come
aut immedatly. But no Palice came far any
investigation. Nat 7th June 1933 vas then
complaint brought in Registered letter to
Officer Commanding R. C. M. Police Edmonton
but he answered that the complaint vas
groundless etc. Sarka efterwards agen
vrotten a letter, vas not all lang He left
this locality bifare he died.

About the same time es Darkas experience
a other settler with name of Rachel came in and hade
battle; He filed on Homestead and got permit
to cut hay for feed for his cattle on [illegible] 10-16-6 W.
He put upp that hay in a stack in the summer
then in the winter he went to his hay to haule
some the hay to the cattle. But when the hay
started to load hay from the stack came Justice
of the Peace Geo H. Berg and a Trapper with
name of Charley Keen and drove the boys from
the hay-stack so he hade to go home without my
hay. Tells that he Justice of the Peace and
the Trapper hauled that settlers hay home to
their own place. I don't ——— know how
long time thes settler and his cattle hade to
supper before they died. That time I called an
Inverter of Publice Healht to investagate et
was any wrang in the Head in this Justice of
the Peace and the Trapper for safety of the Public.
I enclose copy No 2 of Registered letter to

Mennechik 12 of April 1944.

I have to day received information about a Estate; Joseph Dastal deceased: a old agreeculter settler in Mennechik district. Before he passed away he hade made a Will to his widows sán John Tukurumak. (he is away in the Army.)

That 12 of may 1944 was the Father to John Tukurumak in the Judical Office in Wetaskewen par to file Will to the Judge and the Publice to Probatation of that Will. And the Clerk in the Office refused to assert him and advised Tukurumak to go and get a Lawyer to make application par that Will. And 26 of may 1944 was Senior Tukurumak in Edmt at Rutlls Law Office in Wetaskewen and prayd them to Stalle par to make application and delevery Wates to the Judge par Probatation of that Will. When Tukurumak dont received any Wates par to bring the witnes on the Will before the Court. He write to the Lawyer and ask him par explanation. Lawyer informed that the Judge Berry and Hon Dubuc Chief Judge in Edmuntan hade not recognized the Will as a Will. Account of this advise from the Lawyer Tukurumak. wrote a Reg: letter to Hon Mr. Dubuc Edmuntan and asked of the Wates par Probatation of that Will was represented to him and weather he could bring the witness before the Publice and Judge.

To answere an thes careyrandence he received a letter fram the Clerk of the Caurt in Wilaskenin. that was nat nessesary to brung in any witnes.

Thes es evidence that the Lawyers has nat make any Notes delevered to the Judge yet. And when Thukurus ask find aut that the Lawyer hade neglegt to delever the Notes to the Judge es he was prayd for. Thukurus ask write to the Lawyer and demanded to get the Documents and the Will back es he hade left to hem. The Lawyer answered that he cauld nat send hame the Will on caunt he hade left that in the Caurt Haure. And also the Lawyer send a Bill against the Estate for 53 daller for neggard work an that Notes. and matters es the Administratar hade nat ask him to do. and was nat nessesary for Publication of that Will.

Thes cause appears to be a Record of Legal and Judgeal Pracedur 1) The Clerk of the Caurt (Publice servants) refuse to assist the Publice an the Publice Office. 2) The Lawyer neglect to do that work he be prayd for to do. And send Bills ~~and send~~ Bills for work es he has nat been asked for to do 3) The Judges the Judges is supposed to not recademne a Will without Publice Notes and hearing of the witnes 4) The Lawyer refuse to return a document to hes Clients. Thes surely appears to a Medical examenation an thes concerning Heads in the Judgeal Office and the Law-office C. F Larrson

I came from old Country as Immigrants to Kennedick Alta in the spring 1929 for to locate a home for me and family. On account of Recommendation from my interpreter Coleman Tiecs. As representant for Public and Government of Canada I granted Postmaster J. L. Tipping to my administrator for to make up a deed of house and land with Charley Mc Callen Kennedick that 24 day of April 1929. I left 150 dollar in despose of Tipping for payment of that deed and 5 dollar for Tippings trubble to transpher Charley Mc Callens title to me.

According to that instrument as I receeved for my money as I left in despose of Tipping my acting administrator so has Tipping payd my money to Mc Callen for a property as Tipping understand. That Mc Callen was not the Registered owner of and thereby been helping Mc Callen to collect money under falls pratence. Thomas Clery shows that he as the registered owner of my supposed property as Tipping as Tipping has payd my money for. And Thomas Clery with help of Frank Marshall has now destroyed my supposed property entirely.

This has been a incitentally dammage for me and fammely. I hereby lay compliant against Typung E. my administrator for careless administration of a other mans property (cash mammey) as I left in care of him account that he es recammended a were and trustfull man fram Guvernment and Public I demand that he ar Mc Callan be parsed to me my mammey back with interast and offspring of dammage and expence and that the be punished accarding to crimnal law of Canada

Dear Sir.

I receved a copy of Alberta Folklore Zuaterly Magazen and it es much interesting. I enclose here ane dåller for subscriptian

Et es much interesting for mé account the Record shaw s eens year 1630 that my old Fåfather has been Paniceer aged - settler s Ellas an Swedish agriculturist an an that Estate es I also born.

And when when my brather died last summer hes san take afver the Estate also that old Hemmestead es yet belang to the Generaban fram the Paniceer s eens year 1530 es the Record shaw.

Naw when my brather died last summer was the Estate taken afver by his son et es also yet belang to the Generaban fram the Paniceer s eens year 1530.

Thes es a big differents to leesened of fåmen a Paniceer have right to stay an hes Hemmestead en Sweden carry areng to en Canada where the lennet es fram 3 to 30 year es mg bgare ensendt matchial shaw.

But I can not send any Record in Swedish History from any Engeneer Engineer as is have administrate the Natural Resources and the Pioneers Affairs like here in Canada, And surely if they have made that in one Generation it hade not been any Sweden to day or any supply for the Melletary.

I well send in more addetion to the materials as I have send before when I get Time.

I enclace here a hestary about the
Pioniers agreecultur settlars experience
of Bee-keeping fram the begenning
to the end.

Yours truly
C. F. Larssan

Hestary about the Pioniers experence of Bee-keeping in Mennehils Locality:

1) about year 1931 Carl Bahnerg brought in the first bees and materials fram outside to S.E. ¼ 9-46-6 W. 5th. Thase bees died beet the old materials was left.

2) about year 1935 Baran van Kraugner take in bees and materials fram outside to Alder-Flats. Kraugner died and Carl Bahnerg was the administator of Kraugners Estate and also take care of the Deceased bees and materials.

3) Same year later Hedren Kramer started bees an N.E. ¼ 9-46-6 W. 5th.

4) Year 1940 O. F. Larsan baught 1 packets of bee and materials fram Calans and started Bee-keeping an S.E. ¼ 4-45-6 W. 5th

5) Year 1941 Herman Seigel and Parkers baught bees and materials fram Harse and Hermacy in Winfield and started Bee-keeping. Thase bees died in the wenter beet the materials was left.

6) Year 1943 O. F. Larsan and Herry Rienke baught bees and materials fram Harse and Hermacy in Winfield.

Hermacy was the agent to sale these bees and materials and was daeng the enspectian as experance Bee-keeper.

7' Jear 1943 John and Wilfred Anderssan brought in bees and old materials from outside to Alder-Flat and S.E. ¼ 46-5 W. 5 M & Skunchick

8' June 1944 was Alder-Flats and Skunchick Localitys full of Bee-desease.

9' The interesting Enstans is now: where is the Desease commen from? It must have been commen from bees and materials is been brought in from outside by one of here belaw mentioned: Carl ~~Anderssan~~ Bahneng, Baran Kraugner, John and Wilfred Anderssan, Hermady in Winfield ar from packet Bees.

10' Jear 1944 The writer D. F. Larssan get information that John and Wilfred Anderssan Contrary to the Bee-desease act was moveng Bees and old materials between Alder-Flats and Skunchick and between the Trapping and Fishing camps from Buck-Lake and Saskatsewhan River.

11' Ja jear 1944 the writers Bees an

S. E. ¼ 4-46-6 W. 5 was doing fairly good
But year 1944 the writer se something wrong
in two of the hives but not understand
what it was. But afraid it could be start
of desease cammen fram thase swarms bees
and old materials of Carl Behrings, Haugnors
and Andersons old materials as was brought
in fram outside. Et was a case that I
mateyd Mr. W. J. Le Maistre Provincial
Apiarist in Registered letter 8 of april 1944
about this swarms of Bees and old materials
an the trapplines and Fishing-camps.
13 That 8 of June 1945 came a Bee Inspector
fram Edmontan to my place S. E. ¼ 4-46-6 W. 5.
and Inspected my Bees and fund them full
of desease and destroyd the Bees and materials
by fire to big loss for me and our country
Of the Bees had not Inspected a year ago
when I mateyd the Apiarist the Dammage
hade not been so bad and the desease hade
not been spred so bad.
13 I dont know of thase bees and materials
an thase trapplines as I believe that the
desease as cammen fram and mateyd the
Apiarist about been inspected yet
And now it probly as a hard matter to

send them. Et been good time for the trappers to destroy their nests in one year.

14' Of the desease was in that Bees and materials as Hermans Siegel, Parkers, Runka and I bought from Harse and Hermacy en Winfield year 1941 and 1943 so es Mr. Hermacy en Winfield Responsebel for spreding the Bee-desease in this Locality. He was the agent to sale thare Bees and materials and experence Bee-keepers he understand if it was any desease in thare bees and materials.

19' Et appears that the Bees so protected under the Bee-desease act that same way as the Fureber, Mesk-rats and Beaver been protected under the Fure and Game act in this locality since 1st of January, 1936

Additional materials to supplement Primary for Local History about the agreeculter settlars lefve and experience from beginning to the grave. in thes localety.

I am nare the anly one surviving of the Pioniers on the agreeculter front in thes localety. And my Health and working-paower es going down account of hard wark and no change for Medical treatement so I am nat abl to suppart me self by agreeculter wark any mare under thes candatian.

And I have to say that same es Emil Hobben before he passed away. I have before explain in fact the lefve and experence of the Pioniers on thes front es have passed away before me: And the may the been Robbed an every thing in there leve and even the mauements on the grave. The mauument for my grave appears to alreddy been stulen before I gat teme to pass away.

I refere to my before unsende copys of defence and charge to District Court in Wetaskewin 22 Sept and 17 November 1938. es the Judge was nat allawed to looke in to account of Orders from Menister of Justice Ottawa.

2) My defence in Surprime Court Edmantan 8 of July 1943 es the Judge denied hearing of.
3) My Reg: letter to Han Lucean Maynard Attorney General Edmantan 6 of oct 1943 es he do nat answere or take any attention about.
4) Also my Registered Corespandence to Prevy Counsel in Ottawa seens 28 of June 1928 and Surprime Court of Alberta.

Thes appears that the duty of the Judges and Attarney Generals es only to draw there Sallary fram the Publice treasury except en cases where they have any change to send out there agents to mess-represent our Reng, reinforn and cerroboration and draw scandal on Brittesh Justice and Rule. I dont belive the magarity of the peaprle en Alberta Praveance es of so crimenal carachter es they been represented to be and speciall en Wetaskewen Distrect. But it surely es a bad sign en a Country when the auktarity es afraid to appear before Han Judge and Publice en open Court without farce. Crimenal do nat appear foor Han Judge without farce. Now to the last I have to pray to our Han "Lord": For thes represented English Justice under Brittesh pratection, the Shereff and hes gang fram Leduce and the Praniers en Canadas Paliteal and Mellitary Frant safve us.
